freedom from violence

Because violence affects us all

Domestic Violence &  
Sexual Assault Services

## About us

For over 25 years, SafePlace advocates have offered safety and support to survivors of both sexual and domestic violence. Their work makes it possible for thousands of individuals to begin the healing process.

SafePlace strives to put an end to sexual and domestic violence and advocate for personal and societal change through crisis intervention and education.

SafePlace, a feminist organization, is organized exclusively for the following charitable and educational purposes:

- to provide 24-hour crisis and support services, including shelter, to survivors of sexual and domestic violence; and
- to promote understanding and prevention of sexual and domestic violence.

The agency was established as a non-profit 501(c)(3) organization in October 1981.

### In her voice

*"... If it were not for SafePlace, I do not think I could have come this far. When I came to you I was nothing... in my own mind. But you showed me that I was someone important. Now I KNOW I am important. If not for you, I would not have had the tools to stay alive."*
